

Tayyab Sajjad

Lahore, Pakistan | +923197843291 | tayyabsajjad76@gmail.com | [Linkedin Profile](#)

EDUCATION

Bachelor of Computer Science
COMSATS University Islamabad

2024–2028

EMPLOYMENT

Full-Stack Web Development | Freelance (Remote) |

June 2024– Present

- Developed full-stack web applications for enterprise solutions, focusing on responsive design and usability.
- Built dynamic frontends using React and Vue.js, and robust backends with Node.js and Express.
- Implemented secure RESTful APIs, authentication mechanisms, and database integration (MongoDB/SQL).
- Gained hands-on experience with collaborative software development, version control, and deployment workflows.

Freelance Web Analyst (Remote) |

Jan 2025

- Deliver end-to-end web analytics solutions for small businesses and startups.
- Perform data preprocessing and visualization using Python, SQL, and JavaScript libraries.
- Provide actionable insights to improve website performance, usability, and engagement.

Backend Developer, Freelance (Remote) |

Jan 2024

- Developed RESTful and GraphQL APIs using Node.js and Express.js.
- Implemented secure authentication, authorization, session management, and role-based access control.
- Optimized server performance and API endpoints for high efficiency and low latency.

Frontend Developer | 3 Minds Solution, Bahawalpur |

Sep 2023

- Built responsive and dynamic interfaces using React.js, HTML5, CSS3, JavaScript, Bootstrap.
- Implemented reusable components, state management with Redux/Vuex, and interactive dashboards and Charts.
- Ensured cross-browser compatibility, responsive design, and accessibility compliance.

TECHNICALSKILLS

Programming Languages: HTML5, CSS3, JavaScript (ES6+), Python

Frontend Development: React.js, Next.js, Bootstraps, Responsive Design, , UI/UX Implementation,

Markdown Rendering

Backend Development: Node.js, Express.js, MongoDB, LocalStorage, JWT, OAuth, Role-Based Access Control, Microservices, Socket.io

Full-Stack Development: End-to-end application development (E-commerce, Task Management, Hospital Appointment Systems, AI Chatbots), RESTful API design and integration, Data Modeling, Deployment-ready architectures

Tools & Version Control: Git & GitHub, Nodemailer, Form Handling & Validation, Performance Optimization, Debugging, CI/CD Practice

PROJECTS

E-LEARNING STAND:

An interactive learning platform where users can organize courses, track progress, and collaborate with peers. Developed with React.js, MongoDB, and Bootstraps, emphasizing usability and scalable architecture.

AI CHAT ASSISTANT:

A ChatGPT-powered chatbot featuring multi-turn conversations, session memory, and conversation history export. Developed using Node.js, React.js, and OpenAI API for advanced conversational AI functionality.

AUTH MICROSERVICE:

Production-ready authentication service with JWT, refresh tokens, Google OAuth, and role-based access control. Implemented with Node.js and MongoDB for secure and scalable authentication workflows.

E-COMMERCE PLATFORM:

A full-featured online store with cart functionality, user authentication, and payment processing. Built using React, Node.js, and MongoDB, providing seamless shopping experiences and responsive design for all devices.

DEVELOPER BLOG:

Markdown-powered personal blog with syntax highlighting, dark mode, comment system, and SEO-optimized static generation. Built with Next.js and Bootstraps for modern web content management.

CERTIFICATIONS

- **The Complete Full-Stack Web Development Bootcamp** – Udemy
- **Responsive Web Design** – freeCodeCamp
- **MongoDB for Developers** – MongoDB University
- **RESTful API Development with Node.js and Express** – Udemy
- **AWS Certified Security – Specialty** – Amazon Web Services (AWS)
- **Next.js & React – Build Modern Web Apps** – Udemy
- **Version Control with Git & GitHub** – Coursera
- **JWT (JSON Web Token) for Secure Web Applications** – Udemy
